FRONT BRAKE CALIPER CONVERSION UPGRADES

These four pot front brake caliper conversion kits are manufactured in England using Ductile Cast Iron or Aerospace grade 7075 aluminium. They are all fitted with OE quality modern British seals and 303 grade stainless steel pistons and pins. The kits fit straight onto the original suspension uprights without any modification and utilise the original brake discs and hoses. All are supplied complete with Mintex brake pads.

SUPPLIED WITHOUT BRAKE DISCS

SBS9086/1	IRON	S1 3.8 & 4.2
SBS9086A/1	ALUMINIUM SILVER	S1 3.8 & 4.2
SBS9086AB/1	ALUMINIUM BLACK	S1 3.8 & 4.2
SBS9293A/1	ALUMINIUM BLACK	S2 4.2

SUPPLIED WITH VENTED BRAKE DISCS

Vented brake discs offer increased heat dissipation over standard solid discs, making them ideal in situations requiring frequent and/or heavy braking, such as competition and racing.

SBS9093AB/1	ALUMINIUM BLACK	S1 3.8 & 4.2
SBS9293A	ALUMINIUM SILVER	S2 4.2

BRAKE PADS SOLD SEPARATELY

JLM9515 ALL E-TYPE
